

SINTERED STONE BODY SHOW

Sintered stone body is 10000 ton press and firing at high temperatures above 1200 degrees Celsius. It has a Mohs hardness of 6 or above, high toughness, and high bending resistance. It has zero water absorption, no oxides, and no radiation. Ceramic tiles and rock slabs are healthy and safe, without blackening or mold spots. The glaze pattern is more realistic and three-dimensional, with strong plasticity.

8 FINISHES

Esterlla Sintered Stone There are 8 surface processing technologies available, cleverly blending materials and aesthetic effects to create a surface with extraordinary sensory appeal. Not only does it improve slip resistance, but it also maintains a comfortable touch, making cleaning work easier. It is not only suitable for indoor spaces, but also provides comfortable and healthy outdoor spaces for public and commercial areas.

SLAB ADVANTAGE & APPLICATION

EACH TO
THEIR OWN

Solutions coordinated down to the smallest detail through custom-made furniture and accessories.

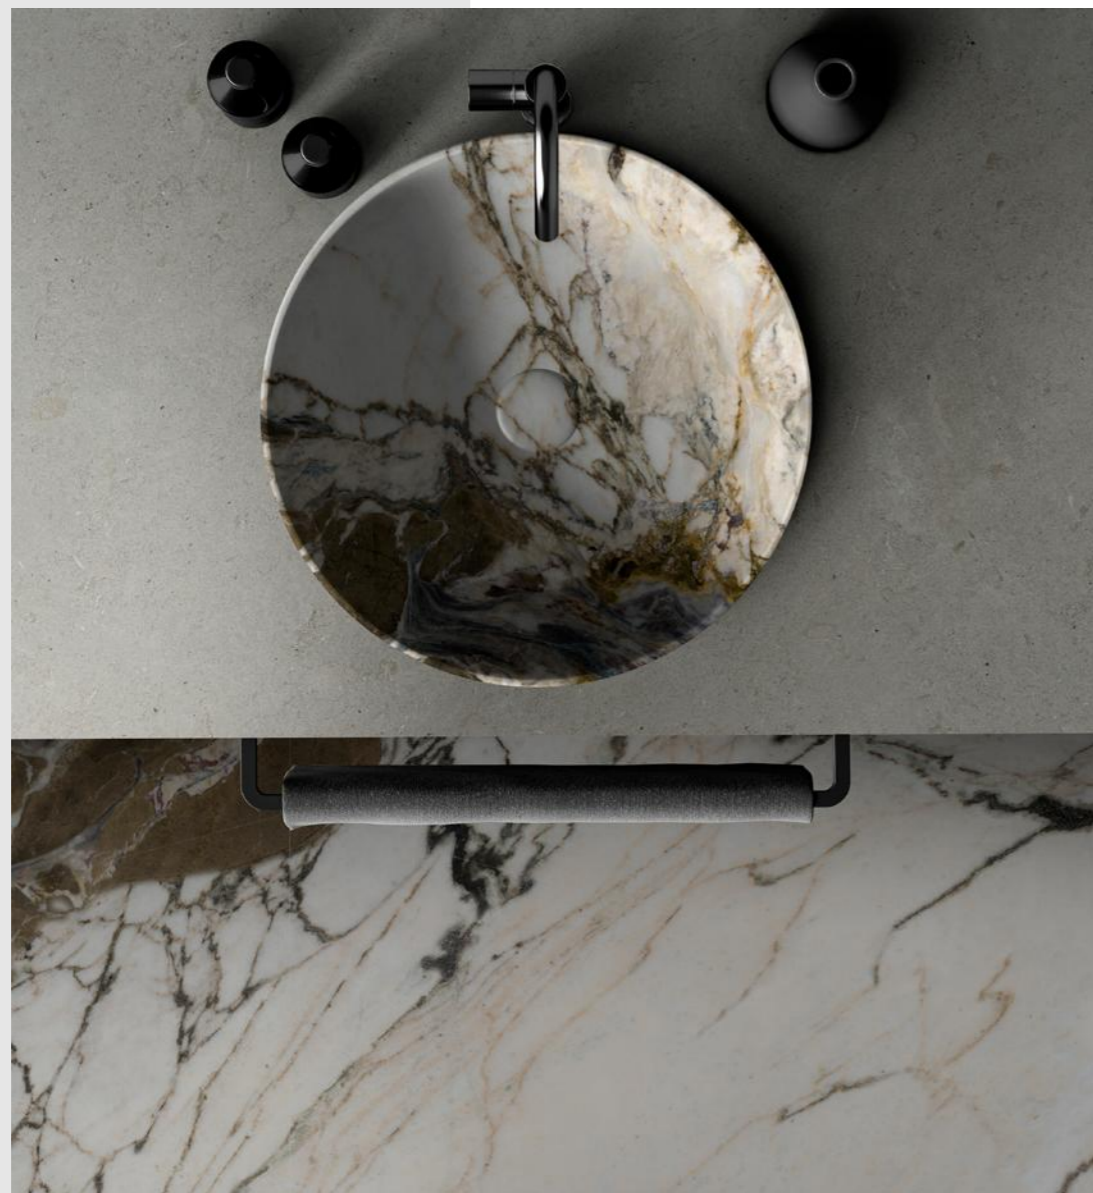

The extremely reduced 6mm thickness, together with the advanced technology, allows an appropriately powerful band of light to travel through the slabs and backlight the material.

TOPS & BATHROOMS

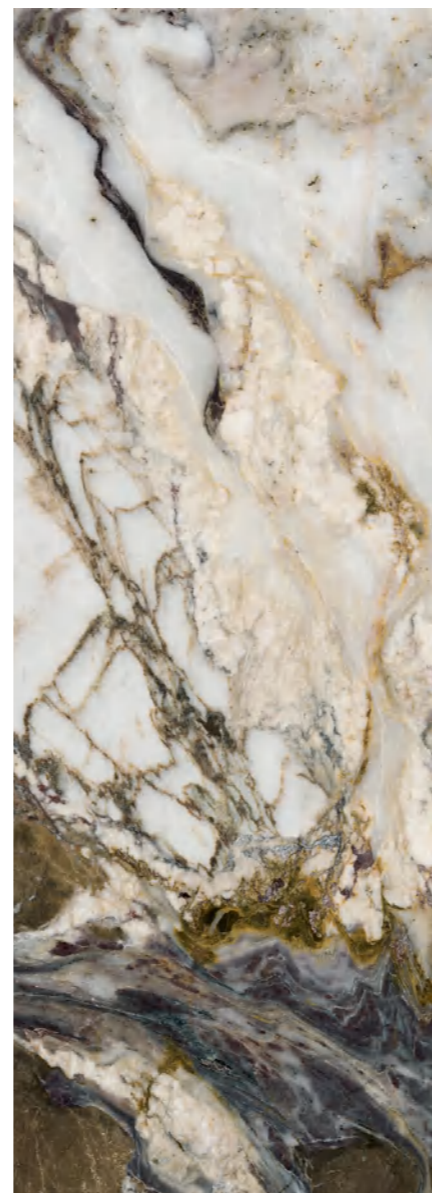

Technology, sophistication and aesthetic appeal come together in a single material, becoming an integral part of the interior design culture and giving concrete form to totally unique vertical and horizontal surfaces. Estrella blends technological innovation and tradition.

WATER TOUCH

YOUR TOTAL LOOK SOLUTION FOR BATHROOM

Solutions coordinated down to the smallest detail through custom-made furniture and accessories.

UNCHANGED OVER TIME

The table plays a crucial role in the home. In this case, it is a real masterpiece that is non-absorbent, anti-bacterial, easy to clean and unaffected by wear and tear. Its tactile sensations and sophisticated, attractive appearance will remain unchanged over the years. Estrella offers the interior design world surfaces of rare beauty with all of the delights of the most prized marble, rocks eroded by the passing of time and the latest trends in the field.
